INTRODUCTION

This publication represents an attempt to combine reports which in previous years were published by the West Virginia Board of Regents as four separate reports. Chapter 1, "Enrollment," presents the headcount and full-time equivalent (FTE) data reported by the State's public and private institutions of higher education for the Fall 1982 term. Chapter 2, "Degrees Conferred," presents an analysis of degrees awarded by the State's public and private institutions of higher education during the 1981-82 academic year. Chapter 3, "Faculty Characteristics," presents information about the full-time and part-time faculty members in West Virginia's public colleges and universities, as of the Fall 1982 term. (The characteristics analyzed in Chapter 3 include academic rank, highest earned degree, years of experience, age, sex, and average nine-month salary.) Chapter 4, "Fiscal Data," presents data on revenues and expenditures at the State's public colleges and universities during the 1981-82 fiscal year.

The 16 public and the 10 private institutions of higher education which reported data for inclusion in this publication are listed on page ii. The Board of Regents is grateful for the cooperation of the private institutions in submitting the data on enrollments and degrees conferred which are reported in Chapters 1 and 2.

Each Chapter of this publication contains a brief introduction and a statement of highlights. Chapters 1, 2, and 3 also are accompanied by illustrative figures. Chapter 3 contains an extensive "Explanation of Tables," including comparative figures (for each pair of tables) from the previous four years.

The present combination of four separate reports into a single publication is consistent with statewide efforts to reduce the costs associated with collecting and reporting data. It is hoped that this streamlined publication will be at least as useful as the previous separate publications. Data included in previous reports nevertheless may be requested from the Central Office of the Board of Regents on an individual basis. In addition, the Board and its staff welcome any suggestions from users of this publication to add data or to present the existing data in an improved format.

CHAPTER 1

ENROLLMENT (FALL 1982)

The following student enrollment reports, which are based on data submitted by the State's public and private institutions of higher education, were current as of the days following registration for the Fall 1982 semester.

Headcount enrollment is a count of the number of individual students attending a college or university. The tables in this Chapter summarize credit headcount enrollment in all institutions of higher education in West Virginia. In addition, each institution's enrollment is reported by sex of student, attendance status, level, and residence.

The full-time equivalent (FTE) enrollment reported for each public institution of higher education is the nationally accepted statistic used to equate to the norm those student workloads which are greater or less than the average full-time student workload. The full-time equivalent enrollment in the medical schools of Marshall University and West Virginia University, reported in Table 1.13, represents the headcount enrollment reported by those institutions.

Definitions of the various enrollment categories used by the Board of Regents are presented on the immediately following pages.

DEFINITIONS

Advanced Graduate Student

A graduate student who is enrolled in a doctoral degree program.

Bachelor's Credit Student

An undergraduate enrolled in a two-year college transfer program or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Career-Technical Student

A lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares for immediate employment.

First Professional Course

A course designed primarily for students enrolled in a program leading to a first professional degree.

First-Professional Student

A student enrolled in a program leading to the first professional degree in Dentistry (D.D.S.), Law (J.D. or LL.B.), or Medicine (D.O. or M.D.).

First-Year Graduate Student

A graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

Foundation Level Course

A course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

Full-Time Student

A student enrolled for credit equal to at least 75 percent of the normal full-time load. For most undergraduates this is 12 semester hours; for graduate students, nine semester hours.

Full-Time Equivalent (FTE) Student

A statistic derived from the student-credit-hour productivity of an institution.

A. Undergraduate FTE: the equivalent number of students derived by dividing by 15 the total undergraduate student credit-hours produced per semester in foundation, lower-level, and upper-level courses.

B. First Professional FTE: the equivalent number of students derived by dividing by 15 the total first professional student credit-hours produced per semester in first professional courses (Law only).

C. Graduate FTE: the equivalent number of students derived by dividing by 15 the total graduate student credit-hours produced per semester in graduate courses.

D. Medical FTE: the same as the headcount enrollment (Dentistry and Medicine only).

Graduate Level Course

A course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

Graduate Level Student

A student enrolled in a master's or doctoral degree program other than the first professional degree programs in Dentistry, Law, and Medicine.

Headcount

A student enrolled in one or more courses for credit.

In-State Student

For West Virginia public institutions, a student who is assessed the tuition and fees specified for a resident of West Virginia; for West Virginia private institutions, a student who lists West Virginia as the permanent address prior to enrolling in the institution.

Lower-Level Student

An undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Non-Credit Student

A student who is enrolled only in non-credit courses or who is auditing credit courses.

Out-of-State Student

For West Virginia public institutions, a student who is assessed the tuition and fees specified for a non-resident of West Virginia; for West Virginia private institutions, a student who does not list West Virginia as the permanent address prior to enrollment in the institution.

Part-Time Student

A student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For must undergraduates, this would mean fewer than 12 semester hours.

Unclassified Student

A student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

Undergraduate Student

A student who has not yet obtained a bachelor's degree.

Upper-Level Course

A course designed for juniors and seniors which is not normally open to freshmen and sophomores.

Upper-Level Student

An undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

HIGHLIGHTS: ENROLLMENT (FALL 1982)

The figures on page 7 show public and private headcount enrollment by classification of student. Of the 71,903 students enrolled at West Virginia's public institutions in Fall 1982, 32.7 percent were classified as freshmen; 38.8 percent of the 10,555 students at the private institutions were so classified.

Enrollment trends at the public institutions show a steady increase in the past five years in full-time enrollment from 40,923 (Fall 1978) to 43,858 (Fall 1982). During the past four years, the part-time enrollment declined steadily from 29,126 (Fall 1979) to 28,045 (Fall 1982).

The ratio of females to males at West Virginia's institutions has increased during the last five years. Females outnumbered males in the public system 37,988 (52.8 percent) to 33,915 (47.2 percent) in Fall 1982; in Fall 1978, females numbered 34,872 (50.7 percent) and males 33,920 (49.3 percent).

CHAPTER 2

DEGREES CONFERRED (1981-82)

The tables in this Chapter present an analysis of the degrees conferred during the 1981-82 academic year by the public and private institutions of higher education in West Virginia.

The West Virginia Board of Regents is committed to the development of degree programs that are directly related to manpower needs and employment opportunities in the State. The Board also wishes to avoid unnecessary duplication of programs throughout West Virginia, as well as the elimination of programs at public institutions that attract few students or that involve excessive costs.

Naturally accepted definitions and principles have been used in the collection and classification of data for this Chapter. The West Virginia Board of Regents Form BOR DA-1 (Degrees Awarded, 1981-82) was used to collect the data. The 29 academic areas of study included in the report (excluding the West Virginia Board of Regents' B.A. degree program) have been extracted from the U.S. Office of Education's publication, A Taxonomy of Instructional Programs in Higher Education. Definitions of the various degrees appear on the immediately following pages.

DEFINITIONS

Associate Degree

A degree awarded upon completion of at least two, but fewer than four, years of work beyond high school.

Career-Technical - Associate degree programs in technological and occupational areas that are designed primarily to prepare for immediate employment.

Pre-Baccalaureate - Associate degree programs that are designed to provide a two-year general education and/or to be chiefly or wholly creditable toward a bachelor's degree.

Bachelor's Degree

A degree granted upon completion of an educational program requiring at least four, but not more than five, years of academic work in the liberal arts, sciences, or professional fields.

First Professional Degree

A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), and the Juris Doctor (J.D.).

Master's Degree

A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D. degree.

Doctoral Degree

The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

HIGHLIGHTS: DEGREES CONFERRED (1981-82)

West Virginia public institutions awarded a total of 10,147 degrees during the 1981-82 academic year. During the same period, the private colleges awarded a total of 1,630 degrees.

As Figure 2 on page 47 shows, 30.6 percent of the 1,865 associate degrees awarded by the public institutions were in the Health Sciences, 25.5 percent were in Business and Management, and 16.5 percent were in the Mechanical and Engineering Technologies. The 6,121 bachelor's degrees awarded by the public institutions in 1981-82 went primarily to students in Business and Management (25.3 percent) and Education (19.3 percent). Almost half of the 2,031 master's degrees awarded in 1981-82 (49.6 percent) were in Education; the second highest number was in Business and Management (12.2 percent). Of the 130 doctorates awarded, 43.1 percent were in Education, and 20.8 percent were in the Biological Sciences.

Of the 340 associate degrees awarded by the private institutions in 1981-82, 31.7 percent were in Health Services and 28.2 percent in the Business and Commerce Technologies. The private institutions awarded 315 bachelor's degrees (25.0 percent of the total of 1,261) in Business and Management, 187 in the Health Professions (14.8 percent), and 120 in Education (9.5 percent). The private institutions also awarded a total of 29 master's degrees in 1981-82, primarily in Education and in Business and Management.

CHAPTER 3

FACULTY CHARACTERISTICS (FALL 1982)

The West Virginia Board of Regents presents in this Chapter analyses of faculty characteristics and remuneration at each West Virginia public institution of higher education. All analyses are based on the Fall term of the 1982-83 academic year.

Faculty members included in this report are those individuals engaged in instruction, either on a full-time or part-time basis, who were responsible for, or in charge of, a class, quiz, drill, or laboratory section. Teaching assistants, teaching fellows, lecturers, and laboratory assistants are included if they meet the preceding criteria. Excluded are student assistants, teaching assistants, and other personnel engaged in subordinate functions.

Faculty of the following classifications have been excluded from this Chapter: faculty in the medical schools, faculty contributing their services, and faculty compensated from funds not controlled or disbursed by their respective institutions. Included in this last group are military science instructors, instructors receiving no pay, and faculty paid through the auspices of other public agencies at no expense to the institution.

HIGHLIGHTS: FACULTY CHARACTERISTICS (FALL 1982)

The figures on page 77 show the composition of full-time faculty who were teaching in Fall 1982. More than half (50.2 percent) of these faculty held a doctoral degree, while 94.1 percent held at least a master's or first professional degree.

The rate of increase of average nine-month faculty salaries halted in Fall 1981. The figures show the distinction among faculty in the various ranks and among those with different degrees held.

The years of experience of faculty show that 64.6 percent had more than five years of experience in teaching, with 48 percent having more than ten years of experience.

AVERAGE NINE-MONTH SALARY FOR FULL-TIME FACULTY TEACHING AT LEAST ONE COURSE FALL, 1978-82

EXPLANATION OF TABLES

Tables 3.1 and 3.2 - Academic Rank of Faculty Members

The current academic rank of teaching faculty is reported in Tables 3.1 and 3.2. Faculty members employed full-time are reported in Table 3.1, while Table 3.2 combines both full-time and part-time faculty. Faculty mix is a factor influencing instructional salary costs. The Fall 1978 through 1982 academic rank data for all public institutions are presented below.

ACADEMIC RANK OF FULL-TIME FACULTY MEMBERS, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.1)

EXPLANATION OF TABLES (Continued)

Tables 3.3 and 3.4 - Highest Earned Academic Degree Held by Faculty Members

The highest earned academic degrees held by teaching faculty members are presented in Tables 3.3 and 3.4. Faculty employed full-time are reported in Table 3.3, while both full-time and part-time faculty are reported in Table 3.4. The level of educational attainment of faculty may be an indicator of their general teaching and research competence, as well as of the general quality of instruction provided by the institution at which they are employed. Below are presented the Fall 1978 through 1982 summary figures for all public institutions.

EXPLANATION OF TABLES (Continued)

Tables 3.5 and 3.6 - Years of Experience at Institutions of Present Employment

These tables present the number of years of experience the faculty members have at the institutions where they are currently employed. The age of an institution or the rapid expansion of an institution can cause a low experience figure. A high rate of faculty turnover at established institutions also will yield a low average of "experience at present institution." Below are presented the summary data for Fall 1978 through 1982.

FULL-TIME FACULTY MEMBERS' YEARS OF EXPERIENCE AT INSTITUTION OF PRESENT EMPLOYMENT, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.5)

	0-5 Years		6-9 Years		10-19 Years		20-29 Years		30 & Over			
	No.	%	No.	%	No.	%	No.	%	No.	%	Total	Avg.
Fall 1978	1,012	40.3	675	26.8	631	25.1	158	6.3	38	1.5	2,514	7
Fall 1979	1,091	42.4	494	19.2	768	29.8	168	6.5	52	2.01	2,573	8
Fall 1980	1,014	40.2	429	17.0	849	33.7	182	7.2	48	1.9	2,522	8
Fall 1981	959	39.2	396	16.2	859	35.1	183	7.5	49	2.0	2,446	9
Fall 1982	884	35.4	426	17.1	948	38.0	185	7.4	53	2.1	2,496	10

FULL-TIME AND PART-TIME FACULTY MEMBERS' YEARS OF EXPERIENCE AT INSTITUTION OF PRESENT EMPLOYMENT, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.6)

	0-5 Years		6-9 Years		10-19 Years		20-29 Years		30 & Over

EXPLANATION OF TABLES (Continued)

Tables 3.7 and 3.8 - Total Years of Experience in Higher Education

The teaching faculty members' total years of experience in higher education are reported in Tables 3.7 and 3.8. The total years of such experience indicate the maturity of an institution's faculty. The summary figures for all public institutions for Fall 1978 through 1982 are presented below.

FULL-TIME FACULTY MEMBERS' TOTAL YEARS OF EXPERIENCE IN HIGHER EDUCATION, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.7)

	0-5 Years		6-9 Years		10-19 Years		20-29 Years		30 & Over			
	No.	%	No.	%	No.	%	No.	%	No.	%	Total	Avg.

EXPLANATION OF TABLES (Continued)

Tables 3.9 and 3.10 - Age of Faculty Members

The age of the teaching faculty member is reported in Tables 3.9 and 3.10. The age mix of a faculty is a factor in staff planning and projecting faculty needs. Below are presented the summary figures for Fall 1978 through 1982.

AGE OF FULL-TIME FACULTY MEMBERS, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.9)

	Under 30		30-39		40-49		50-59		60-64		65 & Over

EXPLANATION OF TABLES (Continued)

Tables 3.11 and 3.12 - Sex of Faculty Members

The sex of teaching faculty members is reported in Tables 3.11 and 3.12. Like the preceding tables in this section, the first table presents data concerning faculty members employed full-time, while both full-time and part-time faculty are included in the second table. The summary figures for Fall 1978 through 1982 are presented below.

SEX OF FULL-TIME FACULTY MEMBERS, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.11)

	Male		Female		Total
	No.	%	No.	%	
Fall 1978	1,856	73.8	658	26.2	2,514
Fall 1979	1,902	73.9	671	26.1	2,573
Fall 1980	1,858	73.7	664	26.3	2,522
Fall 1981	1,771	72.4	675	27.6	2,446
Fall 1982	1,798	72.0	698	28.0	2,496

SEX OF FULL-TIME AND PART-TIME FACULTY MEMBERS, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.12)

	Male		Female		Total
	No.	%	No.	%	
Fall 1978	2,653	72.4	1,057	28.5	3,713
Fall 1979	2,712	71.1	1,101	28.9	3,813
Fall 1980	2,650	70.4	1,115	29.6	3,765
Fall 1981	2,545	70.0	1,091	30.0	3,636
Fall 1982	2,573	69.1	1,151	30.9	3,724

Tables 3.13 and 3.14 - Average Nine-Month Salary of Full-Time Faculty Members, by Academic Rank

The average nine-month salary of teaching faculty members employed full-time is reported in Tables 3.13 and 3.14. The average salary of full-time faculty engaged exclusively in instruction is presented in Table 3.13. Table 3.14 includes the average of full-time faculty engaged exclusively in instruction plus those full-time faculty members who, in addition to teaching courses, are engaged in other activities such as departmental administration, public service, and organized research. The summary figures for Fall 1978 through 1982 are presented below.

AVERAGE NINE-MONTH SALARY OF ALL FULL-TIME FACULTY MEMBERS ENGAGED EXCLUSIVELY IN INSTRUCTION, BY ACADEMIC RANK, ALL PUBLIC INSTITUTIONS (SEE TABLE 3.13)

	Professor		Associate Professor		Assistant Professor		Instructor		Lecturer		Teaching Assistant		Other		Total	
	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary	No. FTE	Avg. Salary

EXPLANATION OF TABLES (Continued)

Tables 3.15 and 3.16 - Average Nine-Month Salary of Full-time Faculty Members, by Highest Degree Held

The nine-month average salary by highest degree held of teaching faculty members employed full-time is reported in Tables 3.15 and 3.16. The average salary by highest degree of the full-time faculty engaged exclusively in instruction is presented in Table 3.15. The average salary by highest degree held for those full-time faculty members engaged exclusively in instruction plus those full-time faculty members who, in addition to teaching courses, are engaged in other activities, is presented in Table 3.16. The summary figures for Fall 1978 through 1982 are presented below.

AVERAGE NINE-MONTH SALARY OF ALL FULL-TIME FACULTY MEMBERS ENGAGED EXCLUSIVELY IN INSTRUCTION, BY HIGHEST DEGREE HELD, MEDICAL SCHOOLS EXCLUDED (SEE TABLE 3.15)

CHAPTER 4

FISCAL DATA (1981-82)

Since its inception in 1969 the Board of Regents has played an active role in the management of all facets of public higher education. Among its many responsibilities is the supervision and control of the financial affairs of its sixteen institutions. This twelfth annual report of current operating revenue and expenditures attempts to summarize the financial condition and current operations of the State System of Higher Education. Information presented in this report is drawn from financial reports completed by each institution shortly after the close of the fiscal year. The period covered by this report extends from July 1, 1981 through June 30, 1982.

By design, this report deals with a discussion of current operating revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Plant Funds (new construction, bond principal and interest, property acquisition, etc.), Agency Funds (institution acting as financial agent for payor) and the like have been omitted. Current funds are categorized as follows: Educational and General, Auxiliary Enterprise, Student Aid, and Medical Schools and Medical Center and will be further defined and classified in the text of this report.

Wherever possible, tables in this report attempt to group similar institutions. In West Virginia, the eight four-year colleges and three community colleges constitute similar groups, while the two universities, the College of Graduate Studies, and the branch college are essentially dissimilar. In addition, the Marshall University School of Medicine, West Virginia School of Osteopathic Medicine, and the West Virginia University Medical Center are inherently different, and although presented together the data should not be used for comparative purposes.

Although certain comparisons among institutions are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they attempt to feed, house, and provide services of a non-educational nature to students, faculty, and staff.

The text of this report is divided into four basic sections. The first provides a summary of the total operations of the State System of Higher Education. The second and third sections contain detailed analysis of educational and general revenue and expenditures, respectively. A fourth section provides a summary of other revenue and expenditures.

HIGHLIGHTS: FISCAL DATA (1981-82)

The 1981-82 fiscal year marked the second consecutive year in which the State's public colleges and universities were required to make substantial mid-year budget adjustments to cope with reduced State appropriations. On January 13, 1982, as a result of declining State tax revenues, the Governor imposed a five percent reduction in the appropriations for all Executive Branch State agencies, except elementary and secondary education, which enjoy certain constitutional protections. Although later amended downward to four and one-half percent, this reduction amounted to a loss of $7.5 million in State tax support for public higher education in West Virginia.

Because the budget reduction occurred in mid-year, its impact was compounded by the cancellation of some Spring Semester classes, elimination of all but essential travel, deferral of maintenance projects and equipment purchases, and a substantial reduction in the number of courses offered in the first session of the 1982 Summer Term.

From an historical perspective, the reduction resulted in the first decline in average State support per full-time equivalent student in the Board's 13-year history, falling from $2,131 per student in fiscal 1980-81 to $2,075 in fiscal 1981-82. At the same time, total average educational and general revenue per FTE student increased from $2,916 in fiscal 1980-81 to $3,103 in fiscal 1981-82. The major portion of this increase resulted from a substantial increase in student fees approved for the 1981-82 academic year. The portion of such fees available to support educational and general activities increased from an average of $138 per student in 1980-81 to $299 per student in 1981-82, an increase of $161 (117 percent). Although the fee increases were approved eight months before the budget reduction and were designed to provide increased instructional and student support, they ultimately served to some extent to replace State tax support.

On a more positive note, the budget for fiscal 1981-82 included the largest single general salary increase in recent history for State employees, including higher education, with all full-time employees receiving a 12 1/2 percent increase.

SECTION I. SUMMARY OF TOTAL OPERATING REVENUE AND EXPENDITURES

Tables 4.1 and 4.2 on the preceding pages reflect the total operating revenue and expenditures of the State System of Higher Education for fiscal year 1981-82. They are presented and categorized as follows:

Educational and General operations of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, Student Services, Institutional Support, and Physical Plant Operations.

Auxiliary Enterprise operations primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives.

Medical Schools and Medical Center relates to the operation of the State's three medical schools, its teaching hospital and clinics, and necessary support services.

Student Aid relates to gifts, grants, endowments, or other sources of income which are specifically designated for scholarships, grants, awards, and the like.

Table 4.3 below provides a comparison of total operating revenue and expenditures for fiscal year 1981-82, while Table 4.4 on the following page provides similar comparisons for the previous four fiscal years.

TABLE 4.3 -- TOTAL OPERATING REVENUE AND EXPENDITURES FISCAL YEAR 1981-82 (in thousands)

Operating Surplus (or Deficiency)	$ (249)	$ 3,539	$ 4,314	$ 700	$ 6,089

METHODS OF ANALYSIS

There are two commonly utilized methods of analyzing current operating revenue and expenditures. One compares the percentage relationship of each revenue source or expenditure function to total revenue or expenditures. This technique reflects the comparative degree of support provided by a specific revenue source. For expenditures, it indicates the level of support for one function compared to that given another function, and also reflects the emphasis a particular institution places on various expenditure categories.

A second approach is to consider revenue and expenditures on a per full-time equivalent (FTE) student basis. The FTE student is the nationally accepted means to translate student credit hours produced by an institution into a more manageable statistic. This statistic is most useful in comparing similar type institutions. It should be recognized that some educational and general activities, such as Research, Public Service, and Physical Plant Operations are not directly related to enrollment.

Tables 4.6 through 4.9 in Section II, and Tables 4.11 through 4.13 in Section III provide per cent of total and per FTE comparisons for educational and general revenue and expenditures respectively. For purposes of per FTE comparisons, these tables use an annualized count of full-time equivalent students, which is comprised of the average of Fall and Spring semester FTE enrollment added to Summer FTE enrollments.

SECTION II. EDUCATIONAL AND GENERAL REVENUE

Educational and General operating revenue is typically classified according to source. This report classifies educational and general revenue according to six major sources. A brief description of each source follows:

1. Tuition and Fees--Revenue available for use by an institution from fees assessed students for educational and general purposes is included in this category. Included are those prescribed fees that must be paid by the student as a condition for applying for admission, enrolling in the institution, enrolling in specific courses, and graduation from the institution. Also included are those student fees allocated by the Board of Regents to supplement institutional operating budgets. Excluded from this report are all other fees restricted by West Virginia statute from use as operating revenue.

2. Governmental Appropriations--Includes allocations to the colleges and universities by the Board of Regents from the State Legislature's annual operating appropriation. These allocations are restricted by the State budget categories of Personal Services, Current Expenses, Repairs and Alterations, Equipment. Amounts that were unspent and reverted to the State Treasury at the end of the fiscal year are deducted from the original allocations. Also included are federal appropriations received by the State's Land Grant Institution, West Virginia University.

3. Governmental Grants and Contracts--Includes revenue received from local, state, or federal government agencies to conduct specific activities or programs, or to provide designated services.

4. Private Gifts, Grants, and Contracts--Revenue received from private individuals, businesses, industries, foundations, and the like which is available for expenditure for educational and general purposes is included in this category.

5. Sales and Services--Includes revenue received by the institution from the sale of goods or services produced in conjunction with its educational program such as agricultural and dairy products, films, publications, and the like.

6. Other Income--Revenue available for educational and general purposes which is not classified elsewhere, such as interest income, is included here.

Tables 4.5 through 4.9 on the following pages provide information and comparisons with respect to educational and general revenue.

*State General Fund Revenue comprises the major source of Governmental Appropriations.

SECTION III. EDUCATIONAL AND GENERAL EXPENDITURES

Expenditures for educational and general purposes include those expenditures for Instruction, Research and Public Service, as well as the necessary ancillary activities of Academic Support, Student Services, Institutional Support and Physical Plant Operations and are defined as follows:

1. Instruction--Includes all expenditures of the instructional departments and schools of the institutions, such as instructional salaries and benefits, office and classroom supplies, and equipment, and other related operating costs. This category also includes departmental research which is not separately budgeted or organized.

2. Research--Includes all expenditures for separately organized and budgeted research activities, such as research bureaus, centers, institutes, and experiment stations. This category includes both externally financed contractual research and institutionally organized and financed research.

3. Public Service--Includes all expenditures for noninstructional activities designed primarily to service the general public, including the costs of all conferences, workshops, public radio and television operations, cooperative extension services, and similar activities.

4. Academic Support--Includes expenditures designed to assist the instituion in meeting its basic instruction, research, and public service mission by providing support services such as libraries, media and learning centers, academic computer support, as well as general academic administration, and faculty and curriculum development activities.

5. Student Services--Includes all expenditures for services to students, such as admissions and registrar's offices, guidance and counseling services, placement services, health services, financial aid administration, student administration, and the like.

6. Institutional Support--Includes all expenditures of the general executive and administrative offices serving the institution as a whole as well as those expenditures of a general character not relating to any specific division or segment of the institution.

7. Physical Plant Operation and Maintenance--Includes all expenditures for the operation and maintenance of educational and general buildings and grounds such as utilities, and custodial services.

Tables 4.10 through 4.13 on the following pages provide information and comparisons with respect to educational and general expenditures.

SECTION IV. OTHER REVENUE AND EXPENDITURES

AUXILIARY ENTERPRISE

Revenue and Expenditures of the various colleges and universities from operations of a noneducational nature are categorized as Auxiliary Enterprise and summarized in Tables 14 and 15 on the following pages. The six major categories of Auxiliary Enterprises include Housing and Dining, Student Union, Bookstore, Intercollegiate Athletics, Parking and Transportation, and Other.

The degree to which an individual institution provides Auxiliary Enterprise services to its students is dependent to a lage extent on its size and type. An institution with a large resident population must necessarily provide more comprehensive services than one in which the majority of students are commuters.

MEDICAL SCHOOLS AND MEDICAL CENTER

The West Virginia Board of Regents operates three medical schools as part of the State System of Higher Education, including the West Virginia University Medical Center, the Marshall University School of Medicine and the West Virginia School of Osteopathic Medicine. Although financial information for the three schools is presented together, no attempt should be made to compare them due to the differences in their educational programs and supporting functions.

Revenue and expenditures in support of medical education in West Virginia is summarized in Table 4.16 and categorized in the same manner as that of regular college and university operations.

STUDENT AID

Revenue from gifts, grants, endowments, and the like provided for the purpose of assisting individual students in defraying the costs of higher education is categorized as Student Aid. This aid may be in the form of need-based grants, awards for academic excellence, or combinations of these and other factors. Excluded from Student Aid presented in this report are privately administered scholarships and grant programs, such as those normally awarded by private foundations, trusts and institutions, and student loans. Student Aid Revenue and Expenditures for Fiscal Year 1981-82 are presented in Tables 4.1 and 4.2.
